

# FORAM RAVALIYA

## SOFTWARE TESTER

Ahmedabad, Gujarat | 8160924718 | foramravalija2621@gmail.com | [linkedin](#) | [github](#) | [portfolio](#)

### PROFESSIONAL SUMMARY

Final-year Information Technology student seeking an entry-level QA Engineer/Software Tester role. Familiar with software testing fundamentals, test case design, defect identification, REST API testing, SQL, and web application testing. Hands-on experience developing and testing database-driven web applications using JavaScript, React.js, Node.js, Express.js, PostgreSQL, and Postman. Strong understanding of debugging, functional testing, and end-to-end application workflows.

### PROJECTS

#### Kids Drawing Website — PERN Stack — PostgreSQL, Express.js, React.js, Node.js

[live](#)

- Developed a child-friendly drawing platform with interactive canvas tools, including brush, eraser, color picker, and shape tools.
- Implemented JWT authentication and CRUD functionality to securely save, edit, and manage user drawings.
- Built RESTful APIs with Node.js & Express.js and PostgreSQL for efficient data management
- Designed a responsive and engaging UI optimized for desktop and mobile devices.

#### Dear Diary — Secure Digital Diary Platform — PERN Stack (PostgreSQL, Express.js, React.js, Node.js), JWT

[live](#)

- Built a secure diary management app with JWT-based authentication and protected routes, supporting full CRUD on diary entries across [X]+ REST API endpoints.
- Designed normalized PostgreSQL schema with [X] relational tables and integrated bcrypt-based password hashing for secure data storage.
- Built a responsive React UI with client-side route protection and persistent login sessions.

#### Recipe Sharing Platform — Next.js, PostgreSQL, Supabase, Authentication

[live](#)

- Developed a community-driven recipe platform enabling users to create, browse, search, and manage recipes, backed by a Supabase/PostgreSQL database.
- Implemented Supabase authentication and row-level security policies to enforce per-user data access control.
- Built search and filter functionality with optimized queries, plus a fully responsive UI across devices.

### INTERNSHIP

#### Web Development Intern — Augmetic Infinite LLP

Feb 2026 – May 2026

- Contributed to web application development using [specific stack, e.g. React.js and Node.js], building [specific feature, e.g. a dashboard module / API integration].
- Integrated REST APIs and connected frontend components to backend services for [specific functionality].
- Collaborated with the team using Git and GitHub for version control across [X]+ pull requests/branches.
- Participated in debugging, testing, and deployment activities, helping resolve [X]+ bugs / improve [specific metric].

### SKILLS

**Software Testing:** Manual Testing, Test Case Design, Test Scenarios, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, Retesting, Defect Reporting, Bug Life Cycle, SDLC, STLC

**API Testing:** Postman, REST API Testing, HTTP Methods, Status Codes, JSON

**Database Testing:** SQL, PostgreSQL, CRUD Operations, Data Validation, Joins

**Tools:** Jira, Git, GitHub, Postman, VS Code

**Programming:** Java, JavaScript, SQL, HTML, CSS

**Development:** React.js, Next.js, Node.js, Express.js

#### Bachelor of Engineering — Information Technology

2022 – 2026

CGPA: 7.68
